

Professional 837 Enumeration and Contractual Chart

Anthem Blue Cross implemented a contingency period for the National Provider Identifier (NPI) on May 23, 2007, that will continue through May 23, 2008.

Anthem Blue Cross' NPI contingency period will formally end on May 23, 2008, unless further guidance is provided by CMS to allow for an extended contingency period. Anthem Blue Cross is currently processing NPI-only claims and encourages all providers to move to NPI-only submission on transactions by the deadline. If a provider is currently submitting with dual identifiers, we encourage the provider to submit a sampling of claims to Anthem Blue Cross with NPI-only identifiers prior to the deadline. After the end of the formal contingency period, we will work with providers and providers' contracted vendors to maintain current business operations, while supporting providers' efforts to comply with the requirements of HIPAA's NPI Rule.

During Anthem Blue Cross' contingency period, we are analyzing claims trends in our ongoing efforts to help ensure a smooth NPI transition. To that end, we developed the following chart to assist our professional providers, since professional providers have several contractual options when they contract with Anthem Blue Cross. Strictly a reference tool, the chart is a guide for entering **Type 1** and **Type 2** NPI information appropriately on the electronic 837 for the three scenarios outlined below. Please note that the chart only applies to providers submitting NPI numbers. The chart is a reference tool only and does NOT replace the American National Standards Institute (ANSI) X12N 837 professional implementation guides, companion documents or trading partner agreements.

Legacy Identifiers (highlighted below in **blue) are optional during the contingency period, except for providers who are not eligible for an NPI. Electronic claims submitted with legacy identifiers may be rejected after the contingency period. (Identifiers that may not be accepted after the contingency period include: 0B, 1A, 1B, 1C, 1D, 1G, 1H, E2, LU, N5, X5).

Loop ID	Data Element	CMS 1500 (08/05) Professional Claim Form	Sole proprietor practice, only enumerated with Type 1 individual NPI	Group practice, enumerated with Type 1 and 2, contracts with Anthem at individual provider level	Group practice, enumerated with Type 1 and 2, contracts with Anthem at group level, most often hospital based physician groups.
