

Monthly Plan Premium for People Who Get Extra Help From Medicare to Help Pay for Their Prescription Drug Costs

If you get extra help from Medicare to help pay for your Medicare prescription drug plan costs, your monthly plan premium will be lower than what it would be if you did not get extra help from Medicare. The amount of extra help you get will determine your total monthly plan premium as a member of our Plan.

The table below shows you how much you will pay for your monthly plan premium based on your state, county and your percentage of the subsidized amount. This does not include any Medicare Part B premium you may have to pay.
