You have questions – we have the answers

What is Medicare?

Medicare is health insurance for people 65 or older and for people younger than 65 with certain disabilities. Medicare was introduced in 1965 as a way for Americans to have more affordable access to health care after retirement. Many of us who are just reaching retirement have had social security and Medicare payroll taxes deducted from our paychecks for most of our working lives.

Who is eligible for Medicare?

Generally, you are eligible for Medicare if:

- You or your spouse worked for at least 10 years in Medicare-covered employment

and

- You are 65 or older OR you are under 65 and qualify for Medicare due to a disability

and

- You are a citizen or permanent resident of the United States.

Medicare has two parts:

Part A (Hospital Insurance) – Most people don't have to pay for this coverage.

Helps pay for:

- Care in hospitals as an inpatient
- Critical access hospitals (small facilities that give limited outpatient and inpatient services to people in rural areas)
- Skilled nursing facilities (not custodial or long-term care)
- Hospice care
- Some home health care

Part B (Medical Insurance) – Most people pay for this coverage through a deduction in their social security check.

Helps pay for medically necessary services and supplies, including:

- Doctors' services
- Outpatient hospital care
- Some other medical services that Part A doesn't cover, such as the services of physical and occupational therapists
- Some home health care

You can find out if you have Part A and/or Part B by looking at your red, white and blue Medicare card.

Medicare Supplement plans help pay for health care costs not covered by Original Medicare

Count on consistent coverage

Medicare Supplement policies are guaranteed renewable. The Medicare Supplement plan you choose can't be canceled for any reason other than non-payment of premium or material misrepresentation.

Guaranteed acceptance

Your acceptance is guaranteed if you apply for coverage before or within six months of your initial enrollment in Medicare Part A and/or Part B. If you've been enrolled in Medicare Part A and/or Part B for more than six months, we'll have to review your health history to see if you're eligible for the plan you selected.

About pre-existing conditions

If you have had at least six months of prior creditable coverage or are in a guaranteed issue situation, you don't have to wait for coverage to start for a pre-existing condition. Many types of health care coverage count as creditable coverage, but they only count if you did not have a break for more than 63 days. This prior coverage can be used to eliminate or shorten waiting periods for pre-existing conditions. A pre-existing condition is a condition either treated or diagnosed six months prior to the effective date of your policy. Remember, for Medicare-covered services, Original Medicare will still cover the condition, even if you are responsible for out-of-pocket costs during the pre-existing condition waiting period.

What are the costs associated with Original Medicare?

Premiums:

Typically you will not have to pay a premium for Part A, but you will have to pay a premium for Part B. The cost of the Medicare Part B premium may be adjusted annually.

You can get Part A at age 65 without having to pay premiums if:

- You already get retirement benefits from Social Security or the Railroad Retirement Board.
- You are eligible to get Social Security or Railroad benefits but haven't yet filed for them.
- You or your spouse had Medicare-covered government employment.

If you are younger than 65, you can get Part A without having to pay premiums if you have:

- Received Social Security or Railroad Retirement Board disability benefits for 24 months.
- Medicare eligibility due to disability.

While you don't have to pay a premium for Part A if you meet one of those conditions, you must pay for Part B if you want it. It is deducted from your Social Security, Railroad Retirement, or Civil Service Retirement check. If you don't get any of the above payments, Medicare sends you a bill for your Part B premium every three months. You will be eligible for Medicare when you turn 65 even if you are not eligible for Social Security retirement benefits.

Medicare Supplement plans give you choice and flexibility

You'll be responsible for a monthly premium in addition to the monthly Part B premium you pay to Medicare. The monthly premium rates can be found in the Outline of Coverage in this booklet. There may be some out-of-pocket fees for covered health care services, depending on the plan you choose.

Medicare Supplement plans give you choice and flexibility. Keeping monthly premiums as low as possible is important to some people, while others want to save as much as possible on out-of-pocket costs. Still others want to ensure that they have emergency medical coverage when they travel outside the United States. Your local agent or Anthem service representative can help you make the choice that is right for you; you also can use the information in this brochure to guide your decision. Remember, you can call our benefit experts at 1-800-916-2583 (TTY/TDD: 711) 8 a.m.–8 p.m., seven days a week. They'll help you understand all the possibilities and benefits available to you once you become eligible for Medicare.

Convenient billing options

Once you are enrolled, you can choose to pay your premiums in any of the following ways:

- Monthly
- Quarterly
- Annually

See your application for billing methods.

Receive a discount for using Automatic Bank Draft when you pay monthly. Receive a discount for paying your premium annually.

Save 5% when more than one member in the household enrolls in a Medicare Supplement plan with us. The discount is for policies with effective dates of June 1, 2010, or after and available to those members who occupy the same housing unit.

Costs Medicare Does NOT Cover:

- Deductibles
- Coinsurance and copayments
- Dental care
- Cosmetic surgery
- Custodial care
- Acupuncture
- Hearing aids, hearing exams and screenings
- Routine eye care and most glasses
- Non-skilled care in nursing homes
- Most health care while traveling outside the United States
- Most outpatient prescription drugs

With Original Medicare, health care costs can quickly add up to thousands of dollars.

Upon reaching Medicare-eligibility, many people have found that while Medicare provides basic health care coverage, it's not always enough.

- **Medicare Part A** provides hospital insurance, yet it does not cover the benefit period deductible or the coinsurance required for hospital care.
- **Medicare Part B** has an annual deductible and typically covers only 80 percent of Medicare's approved amount for medical care.

Medicare Supplement plans shield you from the unexpected

We offer a range of Medicare Supplement products so whether you just want to supplement the basics or want to ensure you have a wide range of supplemental coverage, we have a plan that will work for you. What each plan covers is summarized here. Please see the Outline of Coverage for more detail.

¹ You must pay for Medicare-covered costs up to the high-deductible amount (\$2,000 in 2010) before your Medicare Supplement policy pays anything.

² 100% Part B coinsurance, except up to \$20 copayment for office visit and up to \$50 copayment for ER.

The right Medicare Supplement plan means you are ready for the expected – and the unexpected

When you pick the Anthem Blue Cross and Blue Shield Medicare Supplement plan that's right for you, you can expect to have those same benefits year after year after year. We won't change the benefits that are covered every year like other types of plans do. The premiums, coinsurance and deductibles may be adjusted every year, but the plan itself will not change. The plan you pick today will be the same plan you have 10 years from now – unless YOU decide to make a change.

What to expect

When you visit your doctor:

Have a doctor you like? Let's keep it that way. Your Medicare Supplement plan allows you to see any doctor who is a Medicare-approved provider, anywhere. If you need to see a specialist, there is no need to get a referral to see a Medicare-approved provider. If your travels take you outside of the United States, a number of our plans cover emergency medical care for foreign travel.

- **Costs:** You get the highest level of coverage when you see a Medicare-approved provider. Some of our plans will even protect you from Medicare Part B Excess Charges, which you could incur if you saw a doctor who does not accept Medicare assignment.
- **ID cards:** Present both your red, white and blue Medicare card and your Anthem Blue Cross and Blue Shield Medicare Supplement ID card. Your Medicare card contains the information your doctor will need to file your medical claim with Medicare.
- **Paperwork:** It's all taken care of by your Anthem Blue Cross and Blue Shield Medicare Supplement plan, your doctor and Medicare when you see a Medicare-approved provider.

Freedom to choose, easy to use

- See any doctor or go to any hospital that is Medicare-approved.
- Show your red, white and blue Medicare card and your Anthem Blue Cross and Blue Shield Medicare Supplement card.
- Receive the Medicare-approved care you need.
- Leave the paperwork to your doctor and us!

If you are hospitalized:

With a Medicare Supplement plan, you can anticipate your health care costs even when the unexpected happens, such as a hospitalization. You won't be responsible for lifetime reserve days or benefit periods as with Original Medicare alone. Choose a plan that covers deductibles and annual out-of-pocket maximums and help protect yourself from the many unexpected costs during a hospital stay.

- **Costs:** Your Medicare Supplement plan pays up to 100 percent of Medicare-eligible expenses not covered by Original Medicare. Our low-premium, high-deductible plans require that a deductible be met before the plan begins to pay for all Medicare-approved costs.
- **ID cards:** Present both your red, white and blue Medicare card and your Anthem Blue Cross and Blue Shield Medicare Supplement ID card. Your Medicare Supplement ID card contains the information the hospital will need to file your medical claim with Medicare.
- **Paperwork:** As long as the hospital is Medicare approved, it will be taken care of by your Anthem Blue Cross and Blue Shield Medicare Supplement plan and the hospital.

Free to rest assured you've made the right choice

- Nine out of 10 Anthem Blue Cross and Blue Shield Medicare Supplement members say they are satisfied with access to the doctors and hospitals of their choice.
