

Notice Regarding Closed Status of Policy/Plan The plan/policy options in this matrix are closed plans/policies. A closed policy/plan means the policy/plan is no longer sold to new applicants. If you are on a closed plan/policy, it is possible for discontinuance of new sales to affect your premium. Costs for the insureds/members in your risk pool may increase because new, healthy applicants are no longer being added to the risk pool. Advances in medical technology, increases in utilization, price inflation for medical services, cost-shifting from people who are uninsured to the private sector, high cost of regulatory compliance and lifestyle choices are all factors that impact cost. These examples would apply to all policies/plans that are available for new sales as well as those that are not.
